Zurich Zoo

Not many people can say they start their run in a zoo. Begin your run above the city surrounded by elephants, lions, and snakes.

Dolder Bad

If you tend to overheat during a run, Dolder swimming pool is a great place to take a break and cool off with a refreshing dip. Or take a few turns around the ice rink in winter.

FIFA

One building complex near the zoo may be of particular interest to soccer fans: the headquarters of FIFA, the world soccer association.

Loorenkopf

The high point of this route – in every sense – is the Loorenkopf tower platform. Those who climb the 152 steps to the top are rewarded with a magnificent view.
